PAPER

The elementary school educator's guide to implementing Paper

Paper's unlimited, 24/7 academic support tools foster learning, growth, and development for students while providing assistance to educators.

Build foundational skills

Paper Missions: Fun, interactive math and reading challenges for in-class and at home practice.

Paper Reading: Boost fluency and literacy with read-aloud exercises and our digital library.

> **Pro tip:** Check out academy.paper.co to make the most of Paper! Access a wealth of courses on Paper's features, integration strategies, and educator certifications.

24/7 tutoring and writing support

Live Help: Provides students with individualized academic support from an expert tutor in math, science, ELA, history, and more— anytime and from anywhere.

Review Center: Detailed, comprehensive, and supportive feedback from writing experts. All feedback is aimed at improving confidence and key components of learners' writing.

NEW: Save time with Teacher Assign tools

Pulse Questions: Instantly generate a 5-question quiz based on the subject, learning standard, and theme a teacher selects.

Review Center Assign: Create assignments for your students and let Paper's tutors review their work, saving you valuable time on first draft reviews.

Live Help Assign: Direct students to tutors with all necessary instructions and materials—so tutors have the information they need to help your students succeed.

Track student activity

Insights Dashboard: Monitor tutoring sessions, student usage, and learning trends.
