

# The middle/high school educator's guide to implementing Paper

Paper's full-service educational support system provides tools that foster equitable and readily available academic support and career and college readiness. Below, middle and high school teachers can find insights and pointers into how Paper can empower them and their learners.

## 24/7 academic support across subjects

**Live Help:** On-demand 1:1 tutoring for all subjects, anytime. Ideal for classwork, homework, test prep, and study support.

**Review Center:** Students can submit written work to receive detailed annotations and constructive general feedback on essays, thesis statements, outlines, creative writing, résumés, lab reports, and college admission essays.

## Expansive career and college readiness tools

**MajorClarity by Paper:** Students' one-stop career and college readiness shop

From personality assessments that allow students to identify aligned careers and preferred learning styles to career simulations that “test drive” career pathways, MajorClarity by Paper prepares students for their journeys beyond K-12—whether that involves a college degree, the military, professional certification, or immediately entering the workforce.

## Trackable student activity

The Insights Dashboard allows educators to see Paper in a quantified form. Teachers can view an aggregate of what's covered most in tutoring sessions, which students are using the platform, and other trends.

**Pro tip:** Check out [academy.paper.co](https://academy.paper.co) to make the most of Paper! Access a wealth of courses on Paper's features, integration strategies, and educator certifications.

## Opportunities for independent practice

**Paper Missions:** Math & vocabulary practice  
Students who need additional help with foundational math skills and math experts alike can try out Paper Missions: an interactive hub where they can practice vocabulary and math skills at their own pace—including pre-algebra, algebra I and II, geometry, and trigonometry.

**Paper Reading:** An independent reading practice tool

Paper Reading drives literacy outcomes by listening to students practice reading aloud. Paper Reading provides immediate data-driven feedback students can act on while also helping educators identify differentiated reading levels and effortlessly monitor reading fluency over time.

## NEW: Save time with Teacher Assign tools

**Pulse Questions:** Instantly generate a 5-question quiz based on the subject, learning standard, and theme a teacher selects.

**Review Center Assign:** Create assignments for your students and let Paper's tutors review their work, saving you valuable time on first draft reviews.

**Live Help Assign:** Direct students to tutors with all necessary instructions and materials—so tutors have the information they need to help your students succeed.
